Portfolio: https://rohit-portfolio-beige.vercel.app/

Profile Summary

- Creative UI/UX Designer and Frontend Developer specializing in transforming user-centered designs into scalable, high-performance React applications. Skilled in Figma, wireframing, prototyping, and modern frontend technologies with a strong focus on usability, performance optimization, and product-driven development. Passionate about designing and building seamless digital experiences from concept to deployment.

Education

Vignan's Institute of Information Technology — **December 2022**
B.Tech in Computer Science and Engineering (CGPA: 8.71) — *Visakhapatnam, Andhra Pradesh*

Sasi Junior College — **July 2020**
CBSE - Class XII (Percentage: 93%) — *Visakhapatnam, Andhra Pradesh*

Sanskruthi Global School — **April 2019**
CBSE - Class X (Percentage: 67%) — *Visakhapatnam, Andhra Pradesh*

Projects

AI-Powered Gym Tracker — React, Tailwind CSS, Web APIs — GitHub Repo *2025*

- Built a responsive fitness tracking web application featuring real-time AI-assisted rep counting using camera-based motion detection. Implemented exercise management, set tracking, progress analytics, and smart workout reminders using modern Web APIs. Designed an intuitive, high-performance UI focused on user engagement and interactive feedback.

Event Manager App (UI/UX Design) — Figma Link

- Designed a user-centered mobile application enabling seamless event discovery and booking experiences. Developed structured user flows, wireframes, and high-fidelity interactive prototypes in Figma, focusing on intuitive navigation, scalable design systems, and optimized task completion.

Parasite Detection in Blood Cells — Python, PyTorch, TensorFlow — GitHub Repo *2026*

- Developed a deep learning–based medical image classification system to detect malaria parasites in blood smear images. Achieved 97.3% classification accuracy using convolutional neural networks and optimized preprocessing techniques for real-world diagnostic use cases.

Skills

Technical Skills: React.js, JavaScript (ES6+), Tailwind CSS, HTML5, CSS3
Backend: Node.js, Express.js
Databases: MySQL, MongoDB
UI/UX: Figma, Wireframing, Prototyping, User Flows, Design Systems
AI/ML: Python, TensorFlow, PyTorch
Tools: Git, GitHub, VS Code, Linux

Certifications

- Completed Virtual Internships (Eduskills): **Google Android Developer**, **AI/ML**
- Completed Certifications (Cisco Networking Academy): **Python Essentials** (1) ,**Cybersecurity**,**Networking**
- Completed Certification (Uniathena): **Essentials of UI Design**, **Essentials of UX Design**
